

LockDownIT Seeking Dealers, Agents

LockDown Security Plates come in standard sizes. There are two pieces: the top plate attaches to the PC using the LockDownIT adapters seen here [round pieces] and the bottom plate fixes to the furniture. The top plate with the PC slides into the bottom plate and is locked into place.

LOCKDOWNIT provides physical protection and security for its customers' PCs and other expensive electronic equipment.

LOCKDOWNIT is expanding its business and is looking for dealers and agents with established business relationships in its target markets. LockDownIT is located in southeast Michigan but is expanding nationwide.

Markets	
Educational Institutions	<i>K12 School Districts, Community Colleges, Universities, Libraries</i>
Health Care Institutions	<i>Hospitals, Clinics</i>
Small Businesses	<i>Law offices, Accountant Practices</i>

Key Benefits

- 🔒 No tools required for installation [except LD 400].
- 🔒 Equipment and Security Plates can be readily moved.
- 🔒 Furniture and fixtures unmarred or defaced.
- 🔒 Ultra-strong bonds defy thieves—significantly better than cables.

Here's the 'Deal'

- Protected Territories
- No Inventory — we ship products on receipt of orders
- 35% Commission! Plus dealers can earn additional fees for installation and service.
- Shared marketing campaign costs.
